WRITING WORKS!

Open Institute gives teachers an opportunity to work collaboratively to explore Writing Workshop—what it looks like in the classroom and how to put it into practice. Open Institute is for you if you have a desire to reflect on your own practice as a teacher of writing and investigate ways to enhance what you are currently doing in the classroom.

During the week you will enter a community of writers, share with other teachers from various backgrounds, experience the Writing Workshop, delve into the professional literature, and work with others to plan your own writing workshop for the fall.

The Open Institute is open to all teachers. Past participants have ranged from kindergarten teachers to high school French instructors.
